SUMMARY

Flutter & Full-Stack Developer with 3+ years of hands-on experience building scalable mobile and backend systems. Proven track record delivering reliable apps across industries including healthcare, e-commerce, fitness, mentoring, and automotive. Proficient in Firebase, MongoDB, and Node.js, with a strong focus on scalable architecture and smooth cross-platform experiences. Skilled in REST API integration, authentication, real-time databases, and clean architecture. Known for writing clean, maintainable code and collaborating effectively with cross-functional teams to drive product success.

EDUCATION

University of Engineering and Technology, Peshawar

Bachelor of Science in Computer Science

Peshawar, Pakistan

Aug 2022 - Aug 2026

- Strong foundation in programming, data structures, and algorithms.
- Focus on practical skills including mobile app development and backend systems.

WORK EXPERIENCE

Flutter Developer

Precise

Sept 2024 - Dec 2024

Peshawar, Pakistan

- Developed scalable Flutter applications following clean architecture principles.
- Integrated REST APIs and optimized application performance.
- Converted Figma designs into responsive and user-friendly Flutter interfaces.
- Collaborated with backend developers and participated in testing and bug fixing.
- Contributed to improving app performance, accessibility, and cross-platform compatibility.

PROJECTS

LifeLink – Blood Donation Platform | *Flutter, Firebase, Node.js*

- Real-time blood request system with Firebase Authentication.
- Push notifications and REST API integration.

Dermatology Healthcare App

- Doctor listings, appointment booking, responsive UI, and dynamic filtering.

E-Commerce Application

- Authentication, shopping cart, and product management features.

Fitness Application

- Workout tracking and user profile management.

TECHNICAL SKILLS
